

New Energetics Workshop (NEW)

17-18 May 2016 * Stockholm, Sweden

www.foi.se/new

ORGANIZED BY

FOI and EURENCO

Final Announcement and Call for Papers

Stockholm, the city of Alfred Nobel invites you to a workshop devoted to the science and technology of energetic materials. The workshop is a two day event with a focus on all aspects of *new* energetic materials. It will cover both the basic science, studies on these materials and their development towards different applications. This is a follow up to the popular “Dinitramide and FOX-7 seminar” - with an extended scope in the same informal atmosphere to promote personal contacts and exchange of ideas.

- The format of the meeting is oral presentations (no full papers required.)
- The workshop language will be English
- NB: limited number of 65 attendees. Register early for ensured participation
- Visit to Eurenco (240 km west of Stockholm) 19 May
