

SEC-07-FCT sub-topic 1; arbetsnamn: RATPACC (Riot and Terrorist Protection and Crowd Control)

Sören Jägerhök

Sub-topic 1. New methods for the protection of crowds during mass gatherings

1. “**A policy-making toolkit**, for security policy-makers, to advance towards a future European Security Model applicable by European law enforcement agencies and/or
2. Common approaches, for the long-term, for **assessing risks/threats** and identifying relevant risk-based security measures, including through acceptance tests (that take due account of legal and ethical rules of operation) and cost-benefit considerations and/or
3. Complementing the relevant work of Eurobarometer, better understanding of **how the citizens perceive security** and how it affects their feeling of insecurity, and in connection with potential limitations to, or risks of violations of privacy, and the consequent challenges for LEAs;
4. **Toolkits for law enforcement agencies**, based and validated against the needs and requirements expressed by practitioners, and improving the perception by the citizens that Europe is an area of freedom, justice and security.”

Vi söker samarbetspartners både som projektpartners och i rådgivande organ:

- Europeiska polisorganisationer
- Relevanta krisberedskapsaktörer
- Kompetenta aktörer som åt polisen kan jobba med:
 - Datoriserade beslutsstödsystem,
 - Teknik för info-inhämtning eller reaktion (olika tidsperspektiv)
 - Metoder och dokumentation för lagföring
